

supported by the FCI

Regulations

for the

Agility European Open (EO)

The Agility European Open is an Agility competition which is officially supported by the FCI and is based on the FCI-Agility Regulations. The competition is OPEN to all dogs, with or without pedigree. All National Member Organizations of the FCI or National Organizations with a close relationship to the FCI are invited to participate in this event.

All competitors must be citizens of the country which they represent, or they must have their main residence there. **Handlers with dual nationality can register only for one country.**

All participating dogs must be licensed by their National Member Organization of the FCI or a National Organization with a close relationship to the FCI. All dogs must be 24 months or older on the day of the competition. Each handler can compete with maximum of 4 dogs.

All participating countries will receive an allocation of **32** dogs (max. 8 in any one category). The organizing country can send 1 team (**4 dogs**) extra per category. All these allocations are valid for both the Team and the Individual Event. The EO-winners of previous year in Individual are automatically qualified without imposing on their country's number allocation.

Each National Organization has the right to nominate competitors to the extent of the available allocation and to send the entries to the organizer at the latest by May 31st.

A list of reserve dogs and handlers can be attached to the entries (A country can send 1 reserve dog per 4 dogs, in each category). The reserve may take the place of an original entry, should the original competitor have to be replaced. The reserve may also be allocated an entry in case of an available spot after the closing of entries. If countries choose to have a selection process, this must be open to all dogs (with or without pedigree).

All entries must be sent in by the respective National Organization or an appointed Team Leader. Any and all communication between the organizers and the countries will be done through the Team Leaders. The direct sending of entries to the organizer by single competitors is not possible.

Countries in which the national qualifying results will only be available after the closing date, must let the organizers know before May 31st, how many entries they intend to send. In these cases, no late additional entries can be added. A complete list of all competitors needs to be handed in by latest end of June.

On entering this competition, owner / handler agrees to conform and abide by the FCI rules and regulations.

Veterinary inspection, identity check and height measuring

During the attendance check the identity of each dog will be checked.

The dogs that fail the veterinary inspection are not allowed to take part in either practice or the competition.

All dogs which have not been measured at previous FCI World Championships, European Open or Junior Open Agility World Championships will be measured to check whether the dog is entered in the correct category. Dogs entered in the wrong category will be removed from the competition.

EO – Qualification for the Team Event

The qualification for the Team Event takes place on Friday and is held in the categories Small, Medium, Intermediate and Large.

Teams in all height categories consist of a minimum of 3 and a maximum of 4 handler and dog teams. Mixed Country Teams may also compete (one Team composed of members from different countries).

In the Team Event one Agility round and one Jumping round will be run as qualification for the EO Team Final.

For each round, competitors will be ranked according to faults and time. The first placed handler and dog will receive points according to the number of competitors in that round (= number of Teams x 4), the second placed handler and dog team will receive one point less, the third placed team 2 points less and so on. A disqualification receives 0 points.

The points of the 3 best runs of each Team will count towards the Team result for both rounds (= sum of points received). The 12 Teams in each category with the highest point score after both rounds in each category will be qualified for the EO Team Final. In the case of a tie, the points of the 4th Team member will be taken into consideration. In case of a further tie the highest individual score of a team member will count.

EO – Qualification for the Individual Event

The qualification for the Individual Event takes place on Saturday and is held in the categories Small, Medium, Intermediate and Large.

A Handler with more than one dog should have minimum 20 dogs between each dog (if possible by the number of competitors).

In the Individual qualification an Agility round and a Jumping round is run in all 4 height categories. Both rounds are scored separately for faults and time for all competitors.

In all categories the first 18 placed competitors in both the Agility as well as the Jumping round will have qualified for the Final. Where a team qualifies for the Final in both the Agility as well as the Jumping round, the worse of the 2 scores will be scratched and the next ranking team in that class will move up until all 36 places in each category have been filled for the Finals. In case of a double qualification with the same score in both rounds the Jumping result is scratched.

In addition, the competitors of every country will be ranked separately according to the total of faults and time of both runs in each height category. This ranking determines the internal, country-specific selection order for the EO final. If no team (handler + dog) of a country finished the qualification without elimination in one of the 2 runs, the lower number of faults in the other run decides. In the case of a tie (elimination in one run + same number of faults in the other run, no matter in which run the elimination happened) the better score in the overall result list of the run without elimination counts. In the case of a further tie the better Agility-run will break the tie, finally a draw will decide. A team with 2 eliminations will not qualify for the Final.

The top team from a country qualifies in each height category for the EO Final, if no dog from this country has already qualified directly for the EO Final as "Top 18" in the height category. The qualification for the Final is not transferable to another team.

Furthermore, the EO Individual Winners of the previous year in all 4 heights have qualified for the EO Finals, without imposing on their country's number allocation.

European Open – Finals

All Finals of the Agility European Open are held on Sunday, first the EO Team Finals and then the EO Individual Finals.

Course Plans for the team finals should be provided on paper and preferably the day before.

The EO Team Final is a relay race where 4 separate courses are built in one (extended) Agility ring, partly using shared obstacles.

Each dog has to negotiate between 12 to 15 obstacles and at least one contact zone. The starts and ends have to be in the 4 corners of the course in a way that dogs do not disturb one each other.

The time is started when the dog of the 1st Team member passes his starting line and stopped when the dog of the 4th Team member passes his finish line.

A refusal on the starting jump of the dog 2, 3 or 4 is counted as refusal for the team.

If a dog starts while the dog before is still negotiating the course it count as an elimination.

Eliminations of Team members are counted with 100 faults and the handler has to correct the fault in order to have a time for the whole team. If a handler does not correct the fault the whole Team is eliminated.

The 12 qualified Teams in each category start in reverse order of the qualification score, so the best Team in the qualification will run last in the Final.

All Teams must start in the Final with all the team members who were running the qualification before. If a Team, which was running with only 3 members in the qualification, reaches the Final, one member of this Team must run twice.

The winners of the Team Final will be the "Agility European Open – Team Champion 20XX" in the categories Small, Medium, Intermediate and Large.

The EO Individual Final is an Agility round at A3 level.

The running order in the Individual Final is determined as follows:

- First the qualified teams from the country qualifiers. They will start in reverse order of their time in the Individual Agility round. That is the fastest qualified team will run last, irrespective of the number of faults they had. Qualifiers to the Final without a valid time from the Individual Agility round will run first.
- The 36 qualified teams in each category from both Jumping and Agility in reverse order and alternating (i.e. second to last will be the winner of the Jumping round, and last the winner of the Agility round)

- A Handler with more than one dog should have minimum 20 dogs between each dog (if possible by the number of competitors). At reverse running order, the best ranked dog will keep its position and the other dog(s) will run 20 dogs earlier.
- The EO winner of the previous year will run last at the Final.

The winners of the Final will be the “Agility European Open – Individual Champion 20XX” in their respective height category.

Prize Giving Ceremony

The prize giving for the EO-Qualification runs will be held on Saturday, after the completion of all individual qualification runs.

First the 3 top placed teams of the qualification for the Team Final in all categories (S, M, I and L) will be announced as “1st/2nd/3rd of the EO-qualification for the Team Event 20XX” (without national anthems). Then the 3 first places of both the Agility and the Jumping rounds in all categories will be announced as “1st/2nd/3rd of the EO-qualification for the Individual Event 20XX” (without national anthems).

The prize giving for the EO-Finals will be held on Sunday, after the completion of all final runs. First the top 3 placed Teams of the EO-Team Finals in all categories (S, M, I and L) will be announced, the anthem of the winning country will be played. Should the winner be a „Mixed Country Team “, then the European Anthem will be played. Thereafter the prize giving for the EO-Individual Finals will take place. The top 3 places of the Final round in all categories will be announced, the national anthem of each winning country will be played.

Finally, the EO-flag will be handed over to the organizing country for the following year.

These regulations were approved by the FCI General Committee in March 2019, in Como (Italy), September 2019 and October 2019.

supported by the FCI

Regulations

for the

Junior Open Agility World Championship (JO AWC)

The JO AWC is an agility competition which is officially supported by the FCI and is based on the FCI Agility regulations. The competition is open to all dogs, with or without pedigree.

All National Member Organizations of the FCI or National Organizations with a close relationship to the FCI are invited to participate in this event.

All competitors must be citizens of the country which they represent, or they must have their main residence there. Handlers with dual nationality can register only for one country.

All participating dogs **must be licensed** by their National Member Organization of the FCI or a National Organization with a close relationship to the FCI. All dogs must be 24 months or older on the day of the competition. Each handler can compete with a maximum of 4 dogs.

A dog may only be entered in one age classification at JO AWC.

Each National Organization has the right to nominate competitors and to send the entries to the organizer by May 31st at the latest.

Team leaders of the countries will send an information email to the organizer after which they will receive a confirmation of registration and an entry form.

If countries decide to have a selection process, this must be open to all dogs (with or without pedigree).

All countries participating can enter a maximum of **32** dogs, with a maximum of 8 dogs in any category. The hosting country is entitled to enter an extra team (**4 dogs**) in each height category.

A list of reserve dogs and handlers can be attached to the entries (a country can send 1 reserve dog per 4 dogs, in each category). The reserve may take the place of an original entry, should the original competitor have to be replaced.

The reserve may also be allocated an entry in case of an available spot after the closing of entries. If countries choose to have a selection process, this must be open to all dogs (with or without pedigree).

The winners (same dog and handler) in "individual" (Small – Medium – Intermediate – Large) of the previous JO AWC may register to defend their title. These dogs will simply be added on to the number of dogs allowed for their country.

A country may exceed its quota and additional dogs beyond the maximum will go on the waiting list. After the closing date for entries the organizers may select dogs from the waiting list. Only dogs already on the waiting list will be entered by the organizer.

The maximum number of entries is 700.

The names of the 3 or 4 participants making up each team must be sent in before June 15th at the latest.

After this date the organizer will combine the remaining participants who are not a member of any team into new teams.

The entry fees are €45,00 for individual or team, €55,00 for both competitions.

Veterinary inspection, identity check and height measuring

During the attendance check the identity of each dog will be checked.

Each competitor will submit a document with **their** photograph confirming the date of birth.

The dogs that fail the veterinary inspection are not allowed to take part in either practice or the competition.

All dogs which have not been measured at previous FCI World Championships, European **Open** or Junior Open Agility World Championships will be measured to check whether the dog is entered in the correct category. Dogs entered in the wrong category will be removed from the competition.

JO AWC Age Classification

- U12 - under 12 years old
- U15 - 12 to 14 years old
- U19 - 15 to 18 years old

It is the year in which the handler has a birthday that is taken into account, not the actual date of birth.

JO AWC - individuals

The Individual competition is held in the categories Small, Medium, Intermediate and Large divided into U12, U15 and U19.

There are two rounds: the first one is the Jumping round, the second is the Agility round. The second round is run in the reversed order according to the results from the first round. The winner is the one with the best total result from both rounds and will gain the title "JO AWC 20XX Winner" U12, U15 or U19 respectively in each height category.

A Handler with more than one dog should have minimum 20 dogs between each dog (if possible by the number of competitors).

JO AWC – teams

The Team competition (mixed U12, U15 and U19) is held in the categories Small, Medium, Intermediate and Large.

The teams in all four categories consist of a minimum of 3 and a maximum of 4 dogs.

There are two rounds in this competition. The first one is the Jumping round, the second is the Agility round. The 3 best results of each team will count. The team with the best overall result will gain the title "JO AWC 20XX Winner in Team" in each height category.

Prize Giving Ceremony

The prize giving for the JO AWC finals will be held on Sunday, after the completion of all final runs. First the top 3 placed Teams of the JO AWC Team Finals in all categories (S, M, I and L) will be announced, the anthem of the winning country will be played. Should the winner be a „Mixed Country Team “, then the European Anthem will be played. Thereafter, the prize giving for the JO AWC Individual Finals will take place. The top 3 places of the final round in all categories will be announced, the national anthem of each winning country will be played.

Finally, the JO AWC flag will be handed over to the organizing country for the following year.
